

MK612 is a portable electrochemical metal marking machine equipped with a variable voltage technology (6-12V). Create larger markings on various types of metal surfaces without losing color consistency. Ideal for logos, maker's marks, part numbers, QR codes and more. MK612 comes delivered in a practical carrying case.

By lowering the voltage from 12 to 6V, you will be able to mark larger metal surfaces – without losing color consistency. All your markings will have a uniform dark appearance, no matter their size.

The machine offers fast, safe, and permanent marking of:

- ✓ Logos
- ✓ QR codes, bar codes
- ✓ Serial numbers
- ✓ Part names and codes
- ✓ Maker's marks

Key features:

- Variable voltage for enhanced control – especially useful for stencils with large areas of solid colour (>10mm wide).
- Robust & industrial construction.
- Marking fluids available for a wide range of metal surface types.
- Choose between white felt (a more economic option) or black felt (for a faster process and improved colour consistency).
- Choose between a custom stencil (produced by Cougartron according to your design) or one of our smart stencil-printers (make your own stencils).
- Supplied in a compact carry case.

Technical data

Power supply - 110V version	110 V AC, 50/60Hz, 1A
Power supply - 230V version	240 V AC, 50/60Hz, 1A
Output Amps	<15A
Output voltage	6-12 V AC
DC adaptor compatible	Yes
Input Cable length	1.5m
Output Cable length	1.5m
Marking head options	40mm

Set buying information

Description	Weight	110V	230V
MK612 marking machine - Basic Set	2,41 kg	WELC4930	WELC4024
MK612 marking machine - Starter Set A	2,41 kg	WELC4961	WELC4960
MK612 marking machine - Starter Set B	6,41 kg	WELC4963	WELC4962
MK612 marking machine - Starter Set C	8,0 kg	WELC4965	WELC4964
