# Cougartron FL10

## FLUID FEED STARTERPACK

FL10 is a fluid pump unit compatible with all Cougartron weld cleaners under 80 amps output power. It enables you to control the amount of fluid applied to the brush.

### FEATURES AND BENEFITS

The FL10 will make the weld cleaning faster and easier as it eliminates the need to constantly dip the brush in the cleaning liquid during cleaning. Depending on the weld and the item, you can choose between mode 1-5 to adjust the amount of fluid.
