

Cougartron InoxPower DATA SHEET

GENERAL DESCRIPTION:

InoxPower is a compact and portable machine for stainless steel weld cleaning and marking.

It is designed for both professional and hobbyist use within smaller production environments.

Unlike our stronger machines, InoxPower is not equipped for polishing but remains highly effective with oxide removal and passivation.

The machine is best used for occasional weld cleaning without excessive workload – we recommend our other models for frequent and heavy-duty applications.

With the addition of [Cougartron Basic Etching Set](#), InoxPower can also be used for marking and etching.

TECHNICAL INFORMATION

Input Power	110V, 50/60Hz
Output Power	14V, 30Amps
Cleaning capacity	single brush
Functions	Cleaning TIG light & dark, passivation, marking, etching
Weight	8lbs – machine, 18.8lbs – machine set
Power	30Amps
Application	stainless steel
Part Code	WELC1031 – InoxPower Machine Set

**INOX
POWER**

Cougartron InoxPower Machine Set contents

PART CODE	PRODUCT NAME
	Cougartron InoxPower Machine Unit
WELC2047	Cougartron handle & lead, orange w/X connector – 13ft
WELC2118	Cougartron earth lead & clamp, black w/X connector – 13ft
WELC2226	Cougartron wand with twisting shroud (<i>for single brush</i>)
WELC3101	Cougartron Powerbrush – copper crimp (<i>2pcs in the machine set</i>)
WELC2149	Cougartron Microfiber cloth 16x16inch

Weld cleaning and neutralizing fluids are not a part of the InoxPower Machine Set. They must be purchased separately before you begin working with the machine.

RECOMMENDED FLUIDS

PART CODE	PRODUCT NAME
WELC3129	CGT-550 Weld Cleaning & Polishing Fluid – 1.3Gal
WELC3050	CGT-350 Weld Cleaning Fluid – 1.3Gal
WELC3127	CGT-N1 Neutralizing Fluid – 1.3Gal
