

# Cougartron FURY 200 – DATA SHEET

## GENERAL DESCRIPTION:

Electrochemical weld cleaning system for stainless steel and aluminium.

A unique machine that can be used in the heaviest of application and adapted to suit specific and the most demanding production requirements.

Removes discoloration, heat tints, burn marks, rust and other imperfections appearing on stainless steel and aluminum surfaces after welding.

Suitable for TIG, MIG, MAG, MMA, Stick and all other weld types. Enhanced with multi voltage functionality for effective weld cleaning, passivation, electropolishing, marking and etching\*.

\*With the Cougartron [Basic Etching Set](#), you can use the weld cleaner for electrolytic marking and etching.

## TECHNICAL INFORMATION

<b>Input Power</b>	220-240vac 50/60hz – 16amp
<b>Output Power</b>	10-16vac AC/DC , 200amps
<b>Cleaning capacity</b>	Multiple brushes (1-4)
<b>Functions</b>	Cleaning (TIG, MIG, MMA, Stick), polishing, passivation, marking, etching
<b>Weight</b>	32kg – machine, 68kg – starter set
<b>Power</b>	200Amps
<b>Application</b>	stainless steel, aluminium
<b>Part Code</b>	WELC1041 – FURY 200 Starter Set

**FURY**  
**200**

PART CODE	PRODUCT NAME
	Cougartron FURY 200 Machine Unit
<b>WELC2577</b>	Cougartron FURY 200 handle cable, orange – 6M
<b>WELC2578</b>	Cougartron FURY 200 earth cable, black – 6M
<b>WELC3149</b>	Cougartron FURY 200A brush – 10pack
<b>WELC2313</b>	Cougartron Triple brush wand and twist shroud
<b>WELC3048</b>	CGT-550 Weld Cleaning & Polishing Fluid – 5L
<b>WELC3114</b>	CGT-N1 Neutralizing Fluid – 5L
<b>WELC2005</b>	Acid Pot with lid – 500ml (for CGT-350 or CGT-550 cleaning fluid)
<b>WELC2201</b>	Cougartron spray bottle with sprayer 0,5L (empty) for CGT-N1 neutralizer
<b>WELC2149</b>	Cougartron microfiber cloth 40x40cm (black)
<b>WELC5014</b>	1L Empty Container with lid
