

The Cougartron PowerONE is our brand-new entry-level weld cleaning machine. Although at an entry-level price point, no shortcuts have been taken. This machine has all the safety and design features you have come to accept as standard with Cougartron.

Key features:

- Entry level price point.
- Simple to use.
- 12 ft power and ground cables are standard.
- Excellent Power to weight ratio.
- Splash-proof membrane control panel is easily wiped clean.
- Compact & easily transportable.
- Dual input voltage – use the same machine on a 110V or 230V power supply.
- Easily integrates with the FL21 fluid feed system (see p. 38).
